

PROFESSIONAL DEVELOPMENT FOR THE NEW SOUTH WALES BUILDING INDUSTRY

CPD Points

in

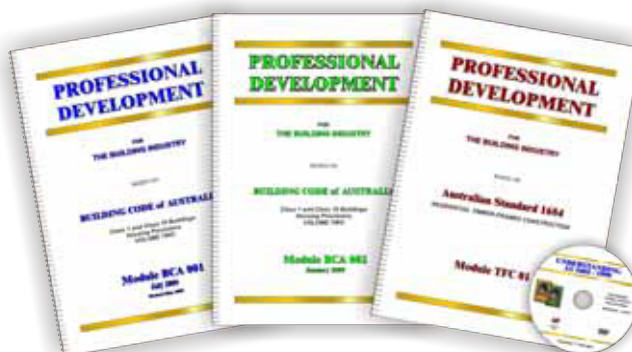

5 easy steps

1. Order the package that suits your needs
(see page 2 of flyer)
2. Work through the course notes
3. Research the answers from a copy of:
*The Building Code of Australia and/or
AS 1684 Residential Timber-framed construction*
4. Complete the answer sheets and return in
the reply-paid envelope
5. Relax and leave the rest to us

BC Presentations offer you a series of CPD courses that provide a simple and practical way of earning your CPD points.

ENJOY THE BENEFITS!

- Courses delivered to your postal address
- Match the course to your points requirements
- Convenient — complete at home as time permits
- Flexible — no time restrictions
- CPD points earned are held on file to verify an audit
- Acquire valuable and practical information on:
 - * **The Building Code of Australia**
 - * **AS 1684 Residential Timber-framed construction**
- Comprehensive, easy to follow course notes
- DVD (OR VHS tape) explains technical concepts (TFC-01 only)
- Reply-paid envelope for returning response sheets
- Great value — see reverse side for details (check with your accountant regarding taxation deductions)

◆ Some course notes require clients to have access to a copy of the BCA

◆ VHS tape supplied on request

SUPPORT
BCP's expert and friendly staff is as close as your phone, fax or email.

CPD COURSES

Note: Point values shown below are for the current 2010 year renewals. (*New 12 points system*).

Professional Development based on *Building Code of Australia* (Module: BCA-001)

12 Points ('12 point system') - RRP \$187.00 incl GST

The first in the BCA series of interesting and informative CPD packages; BCA-001 is designed to introduce building professionals to the wealth of knowledge contained in the *Building Code of Australia Vol. 2. Class 1 and Class 10 Buildings - Housing Provisions*.

A client working through the various examples and exercises based on the BCA will further their existing trade skills and upgrade their knowledge of current standards.

The tasks are straightforward and are completed at home as time permits.

(To complete BCA 001 clients will need access to a recent, but not necessarily current, copy of Building Code of Australia Vol 2)

Professional Development based on *Building Code of Australia* (Module: BCA-002)

12 Points ('12 point system') - RRP \$187.00 incl GST

Following on from BCA-001 this workbook seeks input to solve simulated on-site situations.

Again the tasks are straightforward and are completed whenever time is available.

(To complete BCA 002 clients will need access to a recent, but not necessarily current, copy of Building Code of Australia Vol 2)

Professional Development based on *AS1684 : Residential Timber Framed Construction* (Module: TFC-01)

12 Points ('12 point system') - RRP \$198.00 incl GST

The first in the TFC series of packages; TFC-01 explores Sections 1 and 2 of Australian Standard-1684 Residential Timber Framed Construction.

Designed as an introduction to AS 1684, this package uses clear, simple diagrams and easy to follow examples. It explains how loads are shared in a timber framed structure and shows clients how to select the correct sectional size of a timber member, based on their own calculations.

The included DVD (**OR** optional VHS tape with the same content) assists in understanding some of the more technical concepts of AS 1684.

Completion is self paced and is undertaken as time permits.

NEW ! *(To enable you to complete **TFC 01**, sufficient extracts from Australian Standard 1684 have been **included** under licence to SAI Global P/L)*

IMPORTANT NOTE: Current licence renewals (2010) are under the 'new 12 points system' requiring CPD activities to be undertaken that will earn a minimum of 12 points per year.
